

NORTH SCOTT JUNIOR HIGH SCHOOL was opened to the students in January, 1976. Until that time, we had been housed with the high school students.

We, as a faculty, wish to encourage exploration and participation. We hope to promote an atmosphere in which all students can experience success. We wish to foster the basic skills necessary for continuous learning and to enable the student to apply ideas and skills learned to problem solving. We hope to remain flexible enough to meet the changing needs of the students.

We hope your stay with us will be a most enjoyable and learning experience.

ACADEMICS---The school uses differing instructional and management strategies to facilitate learning. Its design is intended to be adaptable to future programs. The school utilizes an open area of 30,000 square feet to accommodate the curricular offerings of Language Arts, Social Studies, Math, Special Education, Computer Literacy, Reading and Remedial Assistance.

The Media Center is centrally located to the open areas. Its 9000 volumes and other instructional materials are accessible to students at all times.

The remaining 50,000 square feet provides space for Industrial Arts, Home Economics, Art, Typing, Vocal and Instrumental Music and Physical Education. Earth and Life Science Labs are located on the North end of the facility.

#### About Our School ---

We have a staff of 33 teachers

We have a 20 minute lunch period

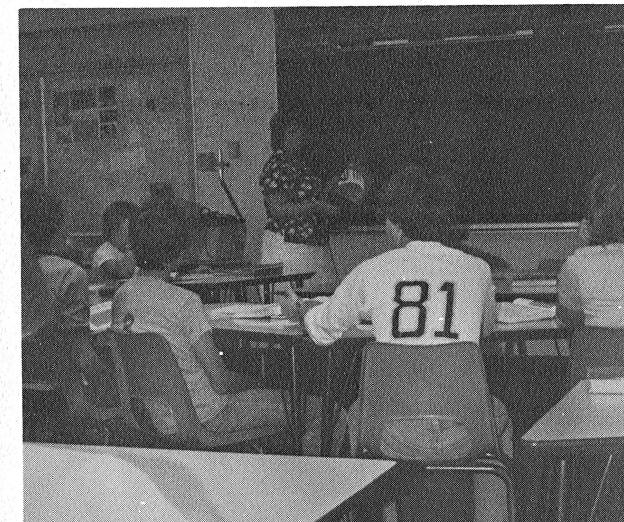

We have assembly programs

We have a jazz band

We have student rules to follow

We have an Open House---Parent-Teacher Conferences

We have mini-courses

The unique character of the school stems from the wide range in the physical and mental development of its students. Since these years are of such a transitional nature, the school must provide a wider and more varied program of experiences than is needed in either an elementary or senior high school.

The school, offering many opportunities to develop individual talents, creates a greater chance of student success in finding their unique place in a very complicated adult world. The school will always remain aware that student success in finding their unique place is not only dependent on getting a good education, but on learning enough about one's own capabilities to put education to profitable use.
